

All American Catfish Website

Description:

A website for Catfish Tournaments to replace the current website that looks professional enough to attract sponsorship.

Features:

- Optimized website with a responsive layout for mobile users.
- Navigation layout with the end user in mind making it easy for things to be found on the page.
- Relevant content and information relating to Cat Fishing Tournaments and related events.
- Secure payment gateway for purchasing merchandise and paying event entry fees.
- A vibrant colour scheme with a wave animation at the top of webpage.

User Interface:

My website will be a simple design built in sections on each page. The navbar will be laid out in a way that makes it easy for the end user to find the thing they are looking for. The website will function well on desktop computers as well as mobiles, columns will shrink down at different break points, the navbar will collapse and sections will centralize along with any text or images.
